

PRESS RELEASE

Joint Initiatives for Smart and Sustainable Municipal Solid Waste Management “INTERNET OF BINS”

Brand New Garbage Truck for the Municipality of Ziros

Great News!!

In the context of the INTERNET OF BINS project, the Municipality of Ziros (Lead Beneficiary of the project) acquired a brand new EURO 6 Garbage Truck.

The garbage truck will be used for, the collection of the Municipal Solid Wastes collected from both the municipality's traditional bins collection system (over ground waste bins) and the new underground bins' collection system that already installed (3 systems) in the context of the project.

Technical Specifications:

- “Press” type /16m³ capacity
- built-in hydraulic crane for lifting off underground waste containers
- GPS Telematic equipment (location monitoring)
- Fuel level sensor (remote monitoring of consumption)
